PROFESSIONAL SUMMARY

Junior Software Developer with hands-on experience developing local network systems and offline desktop applications using React.js and Tauri. Skilled in building clean, functional user interfaces and troubleshooting development environments in Node.js. Detail-oriented and adaptable, with experience implementing technical modules and supporting full-cycle software development.

PROFESSIONAL EXPERIENCE

Quikzle Marketing Corp.

Jan 2026 – Apr 2026

Software Development Intern

- Contributed to the development of an offline Point of Sale (POS) desktop application using React.js and Tauri based on project requirements.
- Assisted in migrating legacy systems from C# to Tauri, helping modernize desktop application workflows while reducing operational costs.
- Built and styled a clean, user-friendly interface to improve usability and overall user experience.
- Troubleshot development environments and managed project dependencies within Node.js-based applications.

EDUCATION

Bachelor of Science: Information Technology

Sep 2022 – May 2026

ICCT Colleges Foundation, Inc.

SKILLS

- **Languages:** JavaScript, TypeScript, HTML, CSS
- **Frontend:** React.js, Tauri
- **Backend:** Node.js, npm

PROJECTS

Bill of Quantities (BOQ) Web Application

- Developed and deployed a browser-based BOQ application using HTML, Bootstrap 5, and JavaScript.
- Built dynamic category and line-item workflows with automatic calculations, draft saving using localStorage, and Excel/PDF export functionality.
- Enhanced responsive UI components and modularized application logic for improved usability and maintainability

MYM POS Mobile Application

- Developed an offline-first POS application for a fruit shake business using React, TypeScript, Vite, and Tailwind CSS.
- Implemented product browsing, cart management, sales tracking, cash drawer reconciliation, and local data persistence using IndexedDB.
- Added PWA support and Android deployment capability through Capacitor for mobile-friendly offline operation
